

## CLEANING CHALLENGES: SOLVED

Cleaning a medical or Healthcare facility, no matter how well-trained or experienced the cleaning team, takes time and effort. Medical facilities present many challenges, which require the best and most thorough cleaning to ensure they are safe from HAIs. We have collaborated with healthcare facility EVS teams to develop and improve cleaning products and systems, ultimately improving cleaning results and efficiency.

### MAIN CHALLENGES:

- Floor Maintenance
- Surface Cleaning
- Cleaning Carts & Hampers
- Restrooms & Trash Management

## FLOOR MAINTENANCE

Shoes, transport equipment such as wheelchairs and beds, and nonslip patient socks introduce pathogens to the healthcare facility floor throughout the day. Our single-use mop system locks and lifts bioburden, dirt and contaminants away for efficient and effective cleaning. 18" mop covers up to 250 sq. ft., while eliminating cross-contamination of patient rooms.

### ADVANTEX® SINGLE-USE MICROFIBER MOP

Exclusively offered by Geerpres® – Microfiber locks and lifts bioburden, dirt and contaminants away for efficient and effective cleaning. MODEL #4831

### ADVANTEX SPILL MOP

Designed to absorb spills quickly using a flat mop handle without the mess of a bucket and wringer. Absorbs up to 32 oz. (large bubble tea or coffee size). MODEL #4830

### ADVANTEX SINGLE-USE FLOOR DUSTER

Designed to attract and hold dust and debris with the microfiber mop and looped fringe. MODEL #48330 / #48331 / #48332

### ADVANTEX FLAT MOP CHARGING BUCKET

4-gallon, 16 liters (Requires much less fluid chemistry). Autoclavable (bucket only). MODEL #7035

## SURFACE CLEANING

Hospitals are switching to single-use microfiber wipes to reduce the risk of spreading surface HAIs. Germs and infections settle on every surface throughout the healthcare facility, raising the risk of patient infection. Second to floors, these most important points are handrails, doorknobs, or any constantly touched surfaces. Germs can spread quickly and cause sickness, so it's essential to disinfect these surfaces properly and frequently.

**ADVANTEK® 1/4 FOLD SINGLE-USE NON-WOVEN MICROFIBER WIPES**

Compatible with all disinfectant solutions, the wipes are durable and have tremendous absorbency and release in a single-use option. **MODEL #48424**

**ADVANTEK MICROFIBER HAND DUSTER**

The professional-grade microfiber grabs hold of bacteria, and dust. The robust duster head is very dense but easily fits in small spaces, and the extendable handle helps reach higher areas. **MODEL #48004G**

**ADVANTEK® HIGH DUSTER TOOL KIT**

The Advantex® High Duster Tool kit includes telescoping aluminum handle and flexible high duster frame with quick connect. Handle easily extends from 42" to 70". **MODEL #100113**

## CLEANING CARTS & LINEN HAMPERS

The hospitality sector must ensure the best first impressions by prioritizing cleaning high-traffic areas frequently. The modular Enterprise® EVS cart and Casino Cart are ideally designed to maintain a professional appearance while keeping all the cleaning essentials ready for efficient cleaning.

**ENTERPRISE® EVS MODULAR CLEANING CART**

Ideally designed for the healthcare industry and configurable to suit various cleaning protocols. The Enterprise® is at the heart of a comprehensive approach to advanced cleaning solutions.

**LINEN HAMPER**

The Geerpres® Linen Hamper features an unbreakable lid, a virtually silent "soft" and hands-free close, and the durability Geerpres® is known for – including a 2-year warranty. **MODEL #48424**

**PROJECT TROLLEY**

Keep your healthcare environment clean and professional with an equipment cart big enough to haul everything.

Large 3' x 6' platform offers the space to hold all your floor finishing equipment: a swing machine, floor dryer blower, wet/dry vac, bucket/wringer, floor cones, and much more. **MODEL #3913**

## RESTROOMS & TRASH MANAGEMENT

In recent years, the healthcare industry has been scrutinized for its significant environmental footprint and concerns that waste may be contaminated with blood, bodily fluids, or HAIs.

Restroom faucets and handles serve as breeding grounds for germs and HAIs and must be disinfected frequently. It is critical to have efficient cleaning equipment that minimizes cross-contamination throughout the facility. For this purpose, we designed the sustainable Advantex Loo-Mop and Advantex® 1/4 Folded Wipe.

Trash collection is a high priority because high-traffic establishments such as Healthcare generate large amounts of trash. Leaking trash liners creates a mess in the trash receptacles and the floor while transferring or transporting waste. These spills cause unsafe floors, spread contamination, and reflect poorly on the facility.

**ADVANTEK ONLY SUSTAINABLE DISPOSABLE LOO-MOP**

Exclusively offered by Geerpres®. Improve cleaning cart cleanliness, eliminating toilet brush buckets, drips and spills. **MODEL #4855**

**ADVANTEK® SPILL HERO™**

It is ideal for placement in waste receptacles or any collection container to absorb leaking and pooling liquids. **MODEL #4841**
